A PDF affiliated with another institution, and not fully paid by the University of Ottawa, is not an employee of the University and will not have an employer/employee relationship. You must comply with the University of Ottawa policies on postdoctoral appointment. For more information: <https://www2.uottawa.ca/study/graduate-studies/policies-postdoctoral-fellows>

University of Ottawa policy on Postdoctoral Fellow appointments

A new policy to address the status of Postdoctoral Fellows at the University of Ottawa came into effect on July 1, 2019. **Policy 123** describes the status, categories, and employment conditions of postdoctoral fellows at the University of Ottawa. <https://www2.uottawa.ca/about-us/policies-regulations/policy-123-postdoctoral-fellows>

All PDFs registered with the OVPGPS have a PDF status at the University of Ottawa with two **possible types of appointments:**

- i. **PDF employee appointment:** employer/employee relationship between the PDF and the University of Ottawa. The supervisor must establish the PDF employee’s responsibilities and objectives and provide the PDF with **performance evaluations:** after a **6-month probationary period**, followed by yearly evaluations, and an end of employment evaluation. A non-binding individual development plan (IDP) can help define the respective expectations for the PDF appointment. A template is available online <https://www2.uottawa.ca/study/graduate-studies/policies-postdoctoral-fellows>

- ii. PDF-affiliated appointment: not an employee of the University, and not paid by the University but by an external institution or agency, this PDF does not receive employee benefits from the University. Registration with OVPGPS only for academic reasons.

Note: PDFs who are funded by a Tri-Agency fellowship is not an employee unless their supervisor offers them a top-up in salary, paid through a bursary.
