The world is changing, and so is the world of business. At the Telfer School of Management at the University of Ottawa, we’ve understood that what matters goes beyond what you can count. We strive to maintain a network of high-quality connections - and what matters to us is to put you at the centre of everything.

Whatever it is that matters to you, we provide you with all the means to make an impact.

We share with you the close connections we’ve forged with our alumni and the business community so that you can learn alongside leaders, executives and entrepreneurs who are as brilliant as they are inspiring.

We share with you the expertise of our researchers, their extensive networks, and their partnerships with organizations in local, national, and international business communities.

Our programs are designed to shape influential leaders, responsible managers and innovative researchers who have a positive impact on the lives of people, organizations and communities. Whatever your goals, we are always close by to help you reach them.

Our professors are internationally recognized for their cutting-edge research, their out of the box thinking, and their leadership of key research networks. They take on the most important issues faced by today’s business leaders, anticipating and devising solutions to tomorrow’s challenges, in all fields of management, including our three strategic areas: business analytics and performance, health systems management, and innovation and entrepreneurship.

Located in the heart of Ottawa, our school is the proud academic home of some 4,300 students, 88 faculty members, and over 25,000 alumni. Our accreditations from the three most demanding international organizations (AACSB, AMBA & EQUIS) underline our recognition as one of the world’s top business schools.

**BYWARD MARKET**

The ByWard Market is Ottawa’s number one tourist attraction, and is the premier destination for shopping, dining, arts, entertainment and professional services for residents and visitors.
PROGRAMS

Undergraduate programs for the next generation of leaders

Our Bachelor of Commerce provides you with a complete business education: academic excellence, a rewarding student life, and distinctive personal and career development opportunities.

Our certificate programs in business administration and human resource management enable ambitious professionals to gain advanced knowledge and skills to propel themselves up the management ranks.

Graduate programs that build high performers

Our MBA provides you with practical and research-based knowledge, close connections with alumni and business leaders as well outstanding experiences inside and outside of the classroom.

Our MBA-JD creatively combines two powerful disciplines into a single four-year curriculum to produce exceptional leaders who can skillfully deal with the business and legal challenges of contemporary corporate life.

Our MHA’s key strengths in the classroom and in practice will channel your passion for health into a fulfilling career, and will enable you to make meaningful contributions to your country’s health care system.

Our interdisciplinary programs in e-business, environmental sustainability, engineering management, information technology project management and systems science enable our students to use their study and research to launch successful careers in the most exciting and promising fields of modern business.

Our Master of Science in Health Systems develops researchers who will lead the transformation to a new way of doing ‘the business of modern healthcare’ in order to achieve outcomes such as patient-centered, evidence based, collaborative care delivery.

Executive leadership programs designed for impact

Our Executive MBA Program accelerates value in three distinct ways: to your continuous growth as a leader, to your impact within your organization and to your impact in your community. The program leverages a Global, Practical and Relevant curriculum designed for working professionals who are looking to gain international market experience and leadership skills necessary to be successful in today’s global economy. Our Signature Series of Six Business Consulting Projects provides our candidates with hands-on opportunities working with real clients addressing real challenges/opportunities in real time.

Our vast array of Executive Leadership Programs—developed in partnership with Telfer executives-in-residence, expert industry practitioners and our accomplished faculty members—enable emerging managers to gain advanced knowledge and skills they can apply immediately and directly to their own professional lives.

Research-based graduate programs that train leading scholars and applied researchers

Our PhD in Management provides students with exceptional research training that will allow them to pursue both academic and applied research careers. We offer five fields of specialization: accounting and control, entrepreneurship, finance, health systems, and organizational behavior and human resources management.

Our Master of Science in Management equips you with the knowledge and skills to examine management issues and challenges from a variety of perspectives, conduct informed research, and uncover findings that can be used to devise solutions for the most important issues faced by today’s businesses.

ACTIVE LIFESTYLE

One of the best ways to explore Ottawa Gatineau is by bike. There are over 600 kilometres of bike paths in Canada’s Capital Region.

RIDEAU CANAL SKATEWAY

Our city is home to the UNESCO World Heritage site, the Rideau Canal. In the winter it transforms into a 7 kilometre skateway, and no worries if you didn’t bring your skates, they are available to rent.
OUR GLOBAL MINDSET

We strive to expose students to global business, attract the brightest students from outside Canada, engage with alumni in key business centres around the world and team up with academic partners in other countries to conduct research and deliver courses and programs.

A WORLD OF REWARDING EXPERIENCES

Our International Exchange Programs make it possible for Telfer School students to experience first-hand the true nature of international business. Students can further or complete their educations while attending one of 45 partner schools located in 23 countries around the world.

INTERNATIONAL RECOGNITION FOR CONTINUOUS IMPROVEMENT

We at the Telfer School are one of only two business schools in Canada and 70 business schools in the world to achieve the triple crown of accreditations. That means our school’s learning opportunities and research performance have satisfied the three most demanding ranking institutes in the world. These prestigious accreditations also mean that our students receive a top-flight education, and that our school attracts the highest-quality students, offers great research opportunities and has achieved global recognition.

LIFE IN THE HEART OF THE COUNTRY

Ottawa is Canada’s capital. Located in the eastern portion of the province of Ontario, the hometown of the Telfer School is one of Canada’s largest and most beautiful cities. As a beautiful G7 capital, Ottawa is rich in culture and heritage with many national institutions and historic buildings. But beyond that first look are some of the world’s best technology companies, Cisco, IBM, Ericsson, Alcatel-Lucent, Ciena and homegrown successes like Shopify, Halogen, Kinaxis, Mitel, Ross Video and 1,700 other companies – including hundreds of vibrant start-ups.*

And getting here is easy—whether by air, rail or road. We’re less than a two-hour drive west of Montreal, a one-hour flight northeast of Toronto and a one-hour drive north of the Canada-United States border. The location of our school within Ottawa itself gives students easy access to numerous shops and restaurants, an array of entertainment options, plentiful housing, and affordable and reliable citywide public transit.
