BOUNDLESS LEADERSHIP: A BREAKTHROUGH PROGRAM FOR WOMEN

Program Prospectus

Today's workplace environment creates unique and complex challenges for women, particularly in some sectors. But evidence indicates that female executives also add unique value and strategic perspective. They consistently break through unhealthy team communications, question out-dated paradigms and innovatively respond to strategic challenges. Research shows that organizations with a gender balance also enjoy measurably better bottom line results.

Faced with various types of challenges, many women step off the ladder at critical transition points. This creates a net loss of talent and competitive advantage to organizations, not to mention frustrated potential for women themselves.

PROGRAM OVERVIEW

Boundless Leadership is designed to specifically address the needs and questions of current and emerging women leaders. We are focused on working with you to answer this question: ***How can I further realize my leadership potential to benefit my ambitions AND to better serve my organization?***

The Program consists of 5 days delivered in two modules. The first module will be three days in-class at the Telfer Centre for Executive Leadership and the second module will be an overnight retreat outside of Ottawa. We will address key leadership issues and skills and cultivate a robust network of colleagues.

Each session will have a specific focus, but the program is holistic and integrated so that each session builds on the next. We will work together to practice new skills and we'll include special guests who can directly address the "real life" experiences related to each topic. Peer coaching groups will support the practical application of learning between modules.

Women are more than twice as likely to quit the tech industry as men (41% vs 17%).

A study of 4,000 women who had recently changed jobs found that the #1 reason women leave companies is because of "a concern for the lack of advancement opportunity.

The statistics tell the story:

Three measures of profitability were used to demonstrate that the 25 Fortune 500 firms with the best record of promoting women to high positions are between 18 and 69 percent more profitable than the median Fortune 500 firms in their industries."*

- European Project on Equal Pay, Roy D. Adler

In 2015 women held approximately 12% of all board seats of TSX-listed companies. About 47% of companies had no women directors and 43% had no women executive officers.
